PROJECTS

Do List

The To-Do List project is a web application designed to help users efficiently manage their tasks. Built with a modern technology stack including HTML CSS, JavaScript. React.js. Node.js. and MongoDB, the application features secure user authentication. task addition. editing. deletion. and completion marking. It offers a responsive, intuitive interface with task filtering and sorting options. ensuring an organized workflow.

Login Form

This project is a secure. responsive login form designed to authenticate users using HTML. CSS. JavaScript, and a backend with PHP or Node.js. It features client-side validation, password hashing. and protection against SQL injection and Cross-Site Scripting. The design adapts to various devices. ensuring usability across mobile, tablet. and desktop screens.
